

Current Configuration

Concerns:

1. Cost of LD
2. Flexibility of system
3. Phones
4. Features of phone system

Summary

- **Great Pricing.** Allworx solution is less expensive than competing solutions. Allworx is a state-of-the-art communication system that integrates a sophisticated phone system, robust data network and software tools. Designed for companies of up to 100 employees per site. Allworx improves communications while simultaneously reducing cost.
- **No need to reconfigure existing phone services.** The Allworx solution will easily fit into your current network.
- **Phone System.** Allworx is a robust PBX and Key system phone system. You can mix and match features as you like – per user. Phone system comes with 9 Auto Attendants
- **Voice Over Internet (VoIP) Ready.** Allworx systems that will allow you to call for free between sites, to and from remote users and leverage an Internet Telephony Services — dramatically reduce your monthly phone charges. Note: High-speed Internet required at each location.
- **Remote Users.** Allworx allows users to connect VoIP phones “from anywhere” over the Internet. Remote users get the same features as local users and are fully integrated into system.
- **Site-to-Site:** Place an Allworx system at each site and create a complete phone “network”. Allows you to have one main number for all locations and free calling between offices.
- **Network Server.** Allworx can manage your entire network. It is a full router, file server, email server and web server.
- **Voicemail.** Each user can have several hours of voicemail. Up to 16 port simultaneous voicemail access.
- **Unified Messaging.** Allworx systems integrate voicemail message into standard email applications allowing users to listen and reply to voicemail message from their PC. Also, Allworx will read email to user over the phone.
- **VoIP or Analog Phones.** Allworx supports the use of both VoIP and standard analog phones.
- **System Administration.** Managing the Allworx 10x can be done remotely, by yourself or through one of our Authorized Allworx Resellers. Moves, adds and changes are done in minutes.
- **Expansion:** Allworx is easy to expand. Depending on the Allworx system, it supports up to 33 CO lines, 100 users with voicemail, 100 extensions and multiple units with our site-to-site feature.
